Location: Kansas City, MO

SUMMARY

I am a UX designer with a passion for great design and solving problems. I have experience in end-to-end design and development of mobile apps in the supply-chain area for 2 years. My area of expertise is in mobile and ERP UX. Prior to my experience in the industry, I have been in academic research for 3 years at the University of Kansas.

EXPERIENCE

User Experience Designer

Data Systems International, KC - MO

2013 - Present

I collaborate with the visual/interaction design team, project managers, and clients to design & develop mobile apps in ERP domain.

- Responsible for producing wireframes and mock ups.
- Build prototypes and demos in the pre-sales process and during production phase.
- Work with multiple stakeholders and offer solutions using user-centered design principles.
- Revise design considerations with clients and offer solutions to tackle scope changes.
- Conducting UX reviews and analysis on completed products.
- Leading the design of UX process and service for mobile projects within Client Services department.

Clients: Goodman Networks, Emirates, Roll Global, Pernod Ricard, Red Rock Consulting, Cascades Recovery, Enersource, GE Oil & Gas, Johnson & Johnson, Cascades Recovery Inc., MFA Oil.
